Midas Permissioned Token Audit

This document presents the findings of a smart contract audit conducted by Côme du Crest.

For any inquiry contact me by email at come.ducrest@gmail.com or via telegram @ComeduCrest.

Scope

The scope includes the `mTokenPermissioned` contract added in `PR 194` of `midas-apps/contracts`. The last reviewed commit of the PR is `0xff4d994`.

Context

By default mToken allow transfer to any non-blacklisted user. The `mTokenPermissioned` inverts this rule by allowing transfers only to whitelisted users.

A requirement document has been provided to describe the necessary contracts behaviour (`here`).

Vaults implement `Greenlistable` which implements `WithMidasAccessControl`. This allow the greenlist toggler role to toggle greenlist to be used to validate user access to the vault. The `MidasAccessControlRoles` defines the operator and greenlisted roles. The roles are checked on external `MidasAccessControl` contract.

mTokens also implement `WithMidasAccessControl` for the same blacklist feature as the vault. However, mTokens do not re-use the greenlist defined in inherited `MidasAccessControlRoles` and define a new role `_greenlistedRole()` for which the default admin will be the `admin` defined in external `MidasAccessControl`.

Status

No issues have been found and the report has been sent to the core developer.

Legal Information And Disclaimer

1. This report is based solely on the information provided by Midas, with the assumption that the information provided is authentic, accurate, complete, and not misleading as of the date of this report. The auditor has not conducted any independent enquiries, investigations or due diligence in respect of the Company, its business or its operations.
2. Changes to the information contained in the documents, repositories and any other materials referenced in this report might affect or change the analysis and conclusions presented. The auditor is not responsible for monitoring, nor will we be aware of, any future additions, modifications, or deletions to the audited code. As such, the auditor does not assume any responsibility to update any information, content or data contained in this report following the date of its publication.
3. This report does not address, nor should it be interpreted as addressing, any regulatory, tax or legal matters, including but not limited to: tax treatment, tax consequences, levies, duties, data privacy, data protection laws, issues relating to the licensing of information technology, intellectual property, money laundering and countering the financing of terrorism, or any other legal restrictions or prohibitions. The auditor disclaims any liability for omissions or errors in the findings or conclusions presented in this report.
4. The views expressed in this report are solely my views regarding the specific issues discussed within this report. This report is not intended to be exhaustive, nor should it be construed as an assurance, guarantee or warranty that the code is free from bugs, vulnerabilities, defects or deficiencies. Different use cases may carry different risks, and integration with third-party applications may introduce additional risks.
5. This report is provided for informational purposes only and should not be used as the basis for making investment or financial decisions. This report does not constitute investment research and should not be viewed as an invitation, recommendation, solicitation or offer to subscribe for or purchase any securities, investments, products or services. The auditor is not a financial advisor, and this report does not constitute financial or investment advice.
6. The statements in this report should be considered as a whole, and no individual statement should be extracted or referenced independently.
7. To the fullest extent permitted by applicable laws, the auditor disclaims any and all other liability, whether in contract, tort, or otherwise, that may arise from this report or the use thereof.
