Midas mWIN Update Audit

This document presents the findings of a smart contract audit conducted by Côme du Crest.

For any inquiry contact me by email at come.ducrest@gmail.com or via telegram @ComeduCrest.

Context

This report follows the mWIN Deployment Audit dated 2026-06-25.

Since the initial audit, Midas made several changes to the mWIN deployment. The mWIN price moved to approximately $130,000 and the related daily limits, minimum amounts and oracle bounds were updated accordingly. The `mWIN` implementation was also upgraded to enforce a minimum post-transfer balance of 1 mWIN. A new `MWinRedemptionVaultWithMToken` was also deployed.

`mWIN` permissioning is enforced at the ERC20 level, where both the sender and recipient of a transfer must be greenlisted. The `DepositVault` and `RedemptionVaults` also have a separate `greenlistEnabled` parameter. This parameter is currently set to `false` and is expected to be changed to `true` as part of the operational configuration. Such a change is expected and should not be considered an issue with the deployment.

This report verifies the changes made since the initial deployment audit and should be read together with the 2026-06-25 report.

Scope

This audit follows a previous audit mWIN deployment. The goal is to ensure the `mWIN` and `MWinCustomAggregatorFeed` contracts have been updated to the correct version as well as verify proper deployment and initialization of `MWinRedemptionVaultWithMToken`.

Name	Address
MWinRedemptionVaultWithMToken	`0x14fECa41FB9541Fd8f61a6bA6304c5b706709fca`
mWIN	`0x4E72025984424E52838cf8953E2863eFf036B67A`
MWinCustomAggregatorFeed	`0x1725A66D810C0775f6B3B0FD85646D371dA19517`

Status

The report has been sent to the protocol team.

Conclusion

No issues have been found with the deployment procedure and the resulting deployed contracts. The expected state of the contracts provided by the team for the audit is consistent with what can be verified on-chain. The bytecode of deployed contracts exactly matches the bytecode of corresponding contracts compiled as of commit `0x34f964e` of `midas-apps/contracts`.

Legal Information And Disclaimer

1. This report is based solely on the information provided by Midas (the “Company”), with the assumption that the information provided is authentic, accurate, complete, and not misleading as of the date of this report. The auditor has not conducted any independent enquiries, investigations or due diligence in respect of the Company, its business or its operations.
2. Changes to the information contained in the documents, repositories and any other materials referenced in this report might affect or change the analysis and conclusions presented. The auditor is not responsible for monitoring, nor will we be aware of, any future additions, modifications, or deletions to the audited code. As such, the auditor does not assume any responsibility to update any information, content or data contained in this report following the date of its publication.
3. This report does not address, nor should it be interpreted as addressing, any regulatory, tax or legal matters, including but not limited to: tax treatment, tax consequences, levies, duties, data privacy, data protection laws, issues relating to the licensing of information technology, intellectual property, money laundering and countering the financing of terrorism, or any other legal restrictions or prohibitions. The auditor disclaims any liability for omissions or errors in the findings or conclusions presented in this report.
4. The views expressed in this report are solely my views regarding the specific issues discussed within this report. This report is not intended to be exhaustive, nor should it be construed as an assurance, guarantee or warranty that the code is free from bugs, vulnerabilities, defects or deficiencies. Different use cases may carry different risks, and integration with third-party applications may introduce additional risks.
5. This report is provided for informational purposes only and should not be used as the basis for making investment or financial decisions. This report does not constitute investment research and should not be viewed as an invitation, recommendation, solicitation or offer to subscribe for or purchase any securities, investments, products or services. The auditor is not a financial advisor, and this report does not constitute financial or investment advice.
6. The statements in this report should be considered as a whole, and no individual statement should be extracted or referenced independently.
7. To the fullest extent permitted by applicable laws, the auditor disclaims any and all other liability, whether in contract, tort, or otherwise, that may arise from this report or the use thereof.

Analysis

MWinRedemptionVaultWithMToken

A new proxy contract was deployed by Midas RWA Deployer 0xf377e2aa453be3accd5e0350243965c98bb7149a at address 0x14fECa41FB9541Fd8f61a6bA6304c5b706709fca. This address uses implementation 0x4F2B9102B436fC37e4667f8d93304F8f0a5Bc5bb for which the bytecode exactly matches the compiled bytecode of MWinRedemptionVaultWithMToken as of commit 0x34f964e of midas-apps/contracts.

The proxy's state exactly matches the expected state provided for this audit:

Parameter	Value
feeRecipient	0x1ED5C5AbfF8d97dBAf9D9C61C3ee744c1b9C51ac
tokensReceiver	0x1ED5C5AbfF8d97dBAf9D9C61C3ee744c1b9C51ac
requestRedeemer	0xF81295463396d709814a8F414F198b4aA7902737
instantRedeemFee	50
sanctionsList	0x40C57923924B5c5c5455c48D93317139ADDaC8fb
greenlistEnabled	false
variationTolerance	20
instantDailyLimit	4000000000000000000 (4e18)
minAmount	7692300000000
fiatFlatFee	30000000000000000000 (3e19)
fiatAdditionalFee	10
paymentTokens	[0xA0b86991c6218b36c1d19D4a2e9Eb0cE3606eB48] (USDC)
paused	false
mToken	0x4E72025984424E52838cf8953E2863eFf036B67A

mWIN

The previously audited proxy 0x4E72025984424E52838cf8953E2863eFf036B67A points to new implementation 0x3421478bDE3Ce905d85fE24682fa8CafdfF3E44a deployed by Midas RWA Deployer. The new implementation exactly matches the compiled bytecode of mWIN as of commit 0x34f964e of midas-apps/contracts.

The proxy's state exactly matches the expected state provided for this audit:

Parameter	Value
name	Midas Wellington Income Opportunities
symbol	mWIN
decimals	18
accessControl	0x0312A9D1Ff2372DDEdCBB21e4B6389aFc919aC4B
paused	false

MWinCustomAggregatorFeed

The previously audited proxy 0x1725A66D810C0775f6B3B0FD85646D371dA19517 points to new implementation 0x7156b140AaD6999F48767Db6687F46e8Df331C4C deployed by Midas RWA Deployer. The new implementation exactly matches the compiled bytecode of MWinCustomAggregatorFeed as of commit 0x34f964e of midas-apps/contracts.

The proxy's state exactly matches the expected state provided for this audit:

Parameter	Value
maxAnswer	14000000000000 (1.4e13)
maxAnswerDeviation	27000000 (2.7e7)
minAnswer	9000000000000 (9e12)
